c. **Maria Rawls – Director of FIELD Advancement, Marketing, Construction/Real Estate (Update & Next Steps on Lancaster Affordable Housing Development Project)**

Maria Rawls, Director of FIELD Advancement, Marketing, Construction/Real Estate gave an update on the Lancaster affordable housing Development Project. The project involves developing land in Lancaster for low-income housing and FIELD services, previously known as the Desert Palms Apartments LP. The original developers faced funding challenges, so are looking to dissolve the limited partnership agreement and SF Development, who holds title and site control, offered the sale of land for development. This led to a partnership with Mirka Investments, a new developer experienced in affordable housing.

Escrow was opened on April 11, 2024 for a \$1.4 million purchase agreement. FIELD is to contribute \$500,000 for initial site control. The remaining \$900,000 is due upon the FIELD securing funding to proceed with development or by June 2026, with a one-year extension option at the cost of \$50,000. Robert Cowan, on behalf of FIELD, requested an amendment to the purchase agreement for a 30-day extension for due diligence which was executed on May 7, 2024. A good amount of the pre-development including the phase one, traffic studies and city sign-offs, has been completed by previous developers, but needs to be reviewed by FIELD and external counsel for due diligence.

Maria Rawls also shared the need to establish a memorandum of understanding (MOU) with Mirka Investments to formalize the partnership and develop a new performance based on updated terms. Robert Cowan to assist with due diligence, negotiation, and forming a new entity to minimize liability for FIELD.

Board members expressed concerns about the project's financial implications, the need for updated performance data, and ensuring adequate protections for the organization. Discussion on forming recommendations to assess options, including potential exit strategies if due diligence reveals unfavorable conditions. Overall, there's a need for more thorough analysis, proforma, clear communication, and informed decision-making to navigate the project's complexities and ensure alignment with Field's financial goals and risk management strategies. The Board requested Ms. Rawls to obtain this information and bring in back to the board for further consideration and due diligence.
